

Sexuality and gender based bullying in schools

An equal opportunity fact sheet for students

What is sexuality and gender based bullying?

Everyone knows about bullying in schools. But what if the bullying behaviour is sexual in nature?

All schools have a duty of care to their students and bullying should not be tolerated.

But does this zero tolerance extend to bullying behaviour that is sexual in nature, and does it apply to sexuality and gender diverse students at your school?

Sexuality and gender based bullying can be similar to sexual harassment or sexual orientation discrimination.

It can be suggestive comments or jokes, insults or taunts, pictures, emails or texts sent by the bully and intrusive questions about a person's private life.

It can even be use of language such as another student saying, "that's so gay".

"Be proud of who you are!"
Claire

"My teachers' silence gave the homophobes the okay." Stephen

Is it against the law?

Yes, often it is!

If the bullying behaviour is sexual in nature it may be sexual harassment.

Just as it may be sexual orientation discrimination if someone has been treated less favourably by staff or other students because of their sexuality or their perceived sexuality.

If you feel that you or someone you know has been harassed or discriminated against you should talk to a staff member you can trust.

If this doesn't work, you or the person being bullied can lodge a complaint with the EOC or the Australian Human Rights Commission.

"It can be really hard to be out at school. When my girlfriend and I were bullied, it helped to talk about it with my mum and teachers." Alexis

Myth Busting!

MYTH : Homosexuality is contagious.

FACT : People cannot “catch” their sexuality. People cannot be “recruited” to be gay, lesbian, bisexual or heterosexual.

MYTH : Gay men & lesbians don’t have long-term relationships.

FACT : Gay, lesbian and bisexual relationships do work. Long term partnerships are not rare at all. Many long term same sex couples may not access gay venues or frequent “the scene” and therefore are not as visible to the community.

MYTH : Bisexuals just can’t make up their mind.

FACT : The point is they have! Sexuality is a range between exclusively gay and exclusively heterosexual, and many people are naturally in between. Everyone has a right to be who they are.

MYTH : Transgender people are confused about their gender.

FACT : Transgender people feel very sure about what gender they are. If they weren’t, they wouldn’t risk exposure to bullying and segregation to live as that gender.
